Experience (6 Years)

Senior Executive in Central Planning

Epyllion Group (4.0 years) — Jul 2024- Running

Responsibilities:

- Coordinate multi-factory order and capacity planning to support production feasibility and timely order execution.
- Analyze factory capacity, line loading, order status, and shipment commitments to identify planning gaps and potential delivery risks.
- Develop and analyze planning reports using Excel, Power BI, and Fast React to support data-driven management decisions.
- Coordinate with Garments Planning, Merchandising, and other cross-functional teams to resolve planning issues and improve order execution.
- Monitor production plan progress, identify bottlenecks, and follow up on corrective actions to minimize delays.
- Support management decision-making through capacity analysis, risk reporting, and order-level planning insights.
